## REVIEW: THEATRE

# A Day in the Death of Joe Egg,

by Peter Nichols  
Playhouse until Saturday 8th

For a play to use humour to challenge an audience's views on a serious subject was not unusual in the sixties. Nor was it unusual for playwrights to overturn the concept of theatre, blurring the boundaries between audience and cast and questioning the idea of what constitutes a play. Biting social satire is also fairly common in stage writing from that decade. What sets *A Day in the Death of Joe Egg* apart, and has led to its being revived with a star-studded cast some 40 years on, is the skill with which these concepts are handled.

Peter Nichols' play manages to be both thought-provoking and funny, while nevertheless remaining totally natural throughout, never lapsing into uncomfortable cliché. The satire may perhaps seem rather tame to modern audiences, but it still rarely becomes cloyingly obvious or self-pityingly angry, a fault only too common in the work of other 60s satirists like Joe Orton. Also unlike Orton is the unpretentious way in which Nichols explores meta-theatrical ideas. Never seeming to try too hard to make his effect, his dialogue effortlessly bridges the gap between the present, the past and the imaginary, and makes the audience's transition from spectator to participant bewilderingly hard to follow.

True, with a production of as high a calibre as this (on its way to the West End as soon

## GIGS + NIGHTLIFE
