**CHEMISTRY WAYNFLETE INTERN**  
 Magdalen College School, Oxford, founded by William Waynflete in 1480, is one of the country's leading independent schools. Each year we employ a small number of graduate or post-doctoral students who are looking to find temporary or part-time employment. They assist with academic or extracurricular activities and bring to our provision the most up to date, scholarly and expert knowledge, as well as a motivating presence, and the inspiration of the highest standards.  
 The school is now looking to expand this successful provision. We would like to employ a Waynflete Intern in the Chemistry Department for the remainder of this academic year. They can be for periods of time ranging from one morning or afternoon a week to full-time employment.  
 Those interested should email a cv with covering letter to the Master ([master@mcsxford.org](mailto:master@mcsxford.org)) indicating the period of time per week for which, ideally, they envisage being involved. The school intends to display flexibility in the recruitment and retention of talent. The closing date is midday Monday 31st October 2011, although an early application is advisable.
