CHEMISTRY WAYNFLETE INTERN

Magdalen College School, Oxford, founded by William Waynflete in 1480, is one of the country's leading independent schools. Each year we employ a small number of graduate or post-doctoral students who are looking to find temporary or part-time employment. They assist with academic or extracurricular activities and bring to our provision the most up to date, scholarly and expert knowledge, as well as a motivating presence, and the inspiration of the highest standards.

The school is now looking to expand this successful provision. We would like to employ a Waynflete Intern in the Chemistry Department for the remainder of this academic year. They can be for periods of time ranging from one morning or afternoon a week to full-time employment.

Those interested should email a cv with covering letter to the Master (**master@mcsoxford.org**) indicating the period of time per week for which, ideally, they envisage being involved. The school intends to display flexibility in the recruitment and retention of talent. The closing date is midday Monday 31st October 2011, although an early application is advisable.

Brasenose College UNIVERSITY OF OXFORD

Annual Fund Officer

Brasenose is one of Oxford's most popular Colleges and has a reputation for excellence within a very friendly environment. Brasenose has over 7000 alumni working in all areas of life. The Alumni Relations and Development Office has in place a successful programme of activities for alumni and has established an effective fundraising campaign. The office is situated in the heart of the College and consists of the Development Director, who is a Fellow of the College, a Major Gifts Officer, a Manager of Development Services, an Annual Fund Officer, an Alumni Relations Officer and a part-time Development Assistant.

The primary purpose of the post is to build the College's regular giving, increasing participation levels and funds raised. The methods employed include a telephone campaign and regular, targeted mailings. It is desirable but not essential that the successful candidate has experience of working within a fundraising environment, preferably within education; and has previous experience with annual fund/telephone fundraising.

The appointment, which is pensionable, will be made on the University Grade 5 scale (£22,971 to £27,428 pa), depending on previous related experience.

To apply please download further information from our website: **www.bnc.ox.ac.uk** or telephone 01865 287275. The closing date for applications is Monday 31 October 2011 and interviews will be held week commencing Friday 18 November 2011.

HIV-CORE 002 STUDY
West London REC 1 No. 10/H0707/52
E u d ract No. 2010-018439-16

Are you interested in taking part in a clinical study aimed at testing a series of new vaccines designed to help the immune system control HIV?

You should be aged 18-50 years, HIV-negative, healthy and willing to discuss HIV infection risks. If you engage in behaviour which could put you at high risk of HIV infection you should not take part in this study. Women who are interested in participating should not be pregnant or intending to become pregnant during the study period.

If you chose to participate, you will receive between 1 and 5 vaccinations over a 7-month period. You will also be required to give a blood sample at each study visit during this time.

The Clinical trial is taking place at the University of Oxford, Centre for Clinical Vaccinology and Tropical Medicine, Churchill Hospital, Headington, Oxford OX3 7LJ.

You will be compensated for your time and for the additional travelling costs to and from the hospital.

Participating in this trial does not mean you will become protected against HIV. If you take part, you will be advised on how to protect yourself against HIV infection.

If you are interested, please contact the email or phone number below for further information.

Thank you for your consideration.

Research Participants Needed For MEG and MRS brain scans

If you are a healthy man, aged 45-60, and willing to help us in our studies of measuring brain electrical activity and biochemistry, we'd like to hear from you. The study involves an initial assessment of about an hour to confirm suitability, and two brain scans on two separate days, each of the scans taking about 60 minutes. We will reimburse you for your time and inconvenience.
