FILM REVIEW

The Imaginarium of Dr Parnassus [12A]

Showing at the Odeon George Street, Phoenix Picturehouse & Vue Cinema, to at least Thursday 22nd. See Cinema listings, below left.

'From Heath Ledger and his friends' – that's the legend at the end of Terry Gilliam's latest movie and Heath Ledger's last. The *Imaginarium of Dr Parnassus* is – appropriately enough – about an imagination in overdrive. Flashes of brilliance shine out from an otherwise flawed film – and it's largely Ledger who dazzles.

Dr Parnassus (Christopher Plummer) is thousands of years old and travels London with his imaginarium – a fairground attraction that boasts archaic entertainment on its rickety frame. But step behind its on-stage mirror and Parnassus' power will cast you into a world of his – or maybe your – imagining.

Parnassus is plagued by the devil (Tom Waits) to whom he lost a bet years ago with the result that that if Parnassus ever has a daughter, she will belong to the devil at age 16. As his daughter's coming-of-age now approaches, Parnassus renegotiates the wager: he and Mr Nick must race to win five souls, with Valentina the prize. Valentina's lovelorn suitor (an irritating Andrew Garfield, *Red Riding*) smells a rat – and thinks Valentina has found one when she rescues a hanging man, Tony (Ledger), from under a London bridge.

Imaginarium is a Gilliam film, no question. But while in *Time Bandits*, *Twelve Monkeys* and *Fear and Loathing* Gilliam made his imagination mean something to most moviegoers, his latest film is a bit of a mess. Overburdened by riotous images barely reined-in by his producer daughter Amy Gilliam, it's an effervescent but indigestible affair.

Ledger's death part way through is a contributing factor. Gilliam subsequently cast Johnny Depp, Jude Law and Colin Farrell as Ledger's mirror-world selves and it works to a point. But Ledger's leavening influence (London accent and all) is badly missed.

The script didn't require reworking and the basic ideas remained. So the flaw is Gilliam's own – a surfeit of ideas blended like the doozy of a cocktail. Willy Wonka's chocolate factory interiors (flowing rivers and glowing colours) collide with a stupendously ill-judged Pythonesque sing-song by policemen in tutus scaring off some Russian mobsters.

But some images are inspired. Tony's hanging body first seems to be a shadow on the water, waving. Scenes in which justice – or the truth – pursues the criminal – are crackingly done, as floors collapse, contract and disappear.

Imaginarium is an upended ragbag of every idea Gilliam's had, from *Python* to the present. Lacking the coherence of *Baron Munchausen* or even *Brazil*, this is simply a set of surprising, sometimes breathtaking images chucked together.

Add to this some ill-advised ad-libbing (well done by Ledger, botched by Garfield) and director Gilliam is like Parnassus himself: an imagination out of control. If you like dazzling images, and off-the-wall humour, it's a blast. And it's poignant to see glimpses of the legend that Ledger might have been. But if you like your flights of fancy more firmly tethered to a funny - if fantastic - plot, it sells you short.

"I often feel I make a film in order to find out what I'm making" Gilliam has said. This sums up *Imaginarium* perfectly.
