VOLUNTEERS NEEDED

VOLUNTEERS NEEDED FOR HIV VACCINE TRIAL STUDY

Would you be willing to assist in a clinical study aimed at developing a HIV vaccine for use in Africa?

You should be healthy, aged between 18 - 60 years, without any previous reaction to vaccinations and not at risk of HIV infection. Female participants should not be pregnant or intending to become pregnant during the study. Each participant should be available for follow-up studies for at least 12 months.

There is no risk of infection to the participants as the vaccine is synthetic - containing no live HIV material. The vaccine works by harnessing the power of the body's own natural defences.

The trial will take place in Oxford. Volunteers will be compensated for travelling cost and for the time they are involved in the study.

If you are interested in becoming a volunteer or finding out more about the study please contact us in one of the following ways or visit our website www.oxavi.org
