CFQ for Beginners

CFQ is a system which reduces stress and promotes relaxation and wellbeing. CFQ level one consists of a series of simple, relaxed movements.

Think tai chi, only much, much easier.

It is particularly suitable for people who have to spend a lot of time thinking and concentrating and find it hard to switch off afterwards.

There are two weekly CFQ classes in Oxford:
Monday afternoon, 2.00 - 3.30pm
Wednesday evening, 7.00 - 8.30pm

Also full day class Sunday December 2nd

CINEMA REVIEW

MR BROOKS [18]

Showing at the Odeon George Street to at least Thu 1st. See listings, left.

Mr Brooks is a pillar of the community... and a serial killer addicted to murder. With an alter ego egging him on to one more spree, it's hard to resist. But when his 'one last kill' is overseen by a prurient camera-man, blackmail and black deeds follow. And with a canny cop on his case, Mr Brooks tries to keep himself out of jail and his family in the dark. Not easy when his daughter may have inherited some seriously killer genes.

Kevin Costner plays against type as the mild-mannered, ice-cold killer. Brutally slaying a young couple, he vows to give it up. But his inner demon - in the shape of a serpentine William Hurt - doesn't believe he can, and won't let him anyway.

Costner's not the problem with *Mr Brooks*. Unashamedly aiming for an 18 certificate, it's a seemingly mature film, shot through with sudden violence, but lacks the psychological depth to which it clearly lays claim.

Demi Moore, however, is a revelation as the world-weary cop. Nailing the nuances of her tough and testy character, Moore steals the show. Or she would if this were a coherent film. Unfortunately, *Mr Brooks* feels like two movies stitched together - a psychological thriller and a gritty police procedural - which just don't match up.

Costner's storyline is icy, talky and meditative, with sudden bouts of violence. But Moore's engaging cop-plot gives way to sudden bouts of action movie crashiness - cameras swirling, soundtrack blaring.

Aspiring perhaps to the thriller status of *Silence of the Lambs*, it fails to grip. And while it purports to plumb some psychological depths, its up-close focus on gushing blood and extra-loud bangs means it's really a slasher film in disguise. Which is a shame, as Costner does great work, and Moore is brilliant.

Perhaps it's no surprise that *Mr Brooks* was conceived as a trilogy: the lazy plotting, lacking any cat-and-mouse bite, denies us a Costner and Moore showdown. Saving it up for a potential part two is not enough.

As a movie, *Mr Brooks* is as dysfunctional and schizophrenic as its title character.

ARE YOU TAKING ANTIDEPRESSANTS?

Researchers at the University of Oxford's Psychiatry Department are looking for people to take part in a questionnaire research study, which investigates possible emotional side effects of antidepressants.

- Are you currently taking an antidepressant for ANY reason? - these medicines are used for many purposes, not just depression.
- Do you think that you may have experienced any emotional side effects from your antidepressant? e.g. might your emotional experiences have been 'blunted', 'flattened' or 'numbed' in any way?
- Would you be willing to complete some questionnaires for us? - We would like people to complete our new questionnaire on 3 separate occasions, in their own time.

IF SO... WE WOULD LIKE TO HEAR FROM YOU!
